

## New Student Personal Care Items Gift Bag

Since there are travel restrictions about liquids and soap, some of our volunteers put together a little gift bag with some supplies internationals might need to use immediately. Please see an example in the photo below. The bag of personal care items can also help students know which products to buy for themselves later. Volunteers have found that taking care of this small practical detail for internationals is another way to show them you care and to help them experience God's love.

Thanks to Hannah B.--IFI volunteer for this suggestion!
